SKIN DISEASE

CURED BY

Ayer's Sarsaparilla

Mr. Geo. W. Burton, Keosauqua, Va., writes, as follows:

"Shortly after leaving college, I was troubled with a skin disease which showed itself, first, at the ankles. Physicians pronounced it eczema, and treated me for that complaint. The eruption crept slowly up my limbs, and on the body, until it enveloped the whole frame. It gave me infinite trouble with constant itching, casting off of dry scales, and a watery liquid which would exude from under the scales. I treated it for over three years unsuccessfully, and was unable to check it until I began using Ayer's Sarsaparilla. I used three bottles of this medicine and was completely cured—my skin becoming as smooth and clear as before."

exude from under the scales. I treated it for over three years unsuccessfully, and was unable to check it until I began using Ayer's Sarsaparilla. I used three bottles of this medicine and was completely cured—my skin becoming as smooth and clear as before."

AN INFORMAL FAREWELL.

ANNEXATION CLUB MEMBERS TAKE LEAVE OF MR. HATCH.

The Departing Envoy Re-affirms His Devotion to the Cause of the Organization.

About fifteen of the original officers of the Annexation Club assembled in the upper hall of the Executive building at 8:30 this morning in answer to a short notice "to meet Mr. Hatch," who was leaving for Washington by the steamer Coptic at 10 o'clock. Mr. McStocker was asked to preside at a business session to arrange for the meeting with the Minister. With a few preliminary remarks he called for the election of a spokesman, to express the sentiments of the organization.

Messrs. Dillingham, Ripley, Smith and McStocker were nominated, but all declined. Mr. Ripley said it took him hours of hard work, and Mr. Dillingham said it took himself a week, to prepare an impromptu speech. Mr. Smith was induced to accept the honor at the unanimous request of the meeting.

Minister Hatch arrived at 9 o'clock and began shaking hands all round, saying that for a few minutes he would be a private citizen, and that he was glad to meet his old comrades.

Upon the arrival of Minister Hatch the following gentlemen were present: Dr. J. S. McGrew and J. A. Kennedy, vice-presidents; and J. W. Jones, secretary; Geo. P. Castle, B. F. Dillingham, Geo. W. Smith, J. A. Low, T. E. Murray, president American League; W. J. Lowrey, C. B. Ripley, J. S. Martin, A. W. Keech, J. L. McLean, Dr. C. B. Wood, F. B. McStocker, and H. E. Cooper, Minister of Foreign Affairs.

Mr. McStocker informed the Minister of the action of the meeting, and then Mr. Smith stepped forward and addressed the Minister as follows:

MR. HATCH: At the formation of the Annexation Club in March, 1893, the members and officers of the club selected you as our chairman, and your position in the Government of the Republic and your record of the past two and a half years have shown eminently the wisdom of the choice.

We now take pleasure in congratulating you and we also congratulate the Government and ourselves on your appointment to the very important position of Minister Resident at Washington. We trust that through your efforts the time is near at hand when the need of a Minister from Hawaii to the United States will have ceased, and that the end for which we are all working and which you more especially represent, annexation to that great country, will have taken place.

We desire at the present time to bid you a hearty Godspeed, with every wish for success and with the assurance of our personal esteem and regard.

Mr. Hatch replied as follows:

GENTLEMEN:

I thank you very much for your kindness in coming around to shake hands with me. It is a matter of great pride that I hold certificate No. 1 as a member of the Annexation Club. You all know how I feel with regard to the sentiments that brought us together, and I need not tell you that in my new position I shall do all in my power to effect our common object. Gentlemen, I wish you all a life of prosperity.

Mr. Hatch then exchanged cordial farewells with each of the party, and hurried into President Dole's room, where he had

a brief final conference with the President, Minister King and his own successor elect, Judge Cooper. He drove off in a hack with the President at twenty minutes to ten o'clock, Messrs. King and Cooper having gone down town a few minutes previously.

NAVAL NOTES.

Movements of Uncle Sam's Cruisers in the Pacific, Etc.

The cruiser San Francisco was at Southampton September 15.

Captain Robley D. Evans has been ordered to command the battleship Indiana.

The detail of officers for the cruiser Boston, now at Mare Island, has been completed. Commander Nicol Ludlow has been recommended for promotion to captain, and will probably command the cruiser. It is said that the department will be compelled to send a crew from the East to man the cruiser. The report goes that there has been some difficulty in getting the character of men desired for the naval service on the Pacific Slope. The Boston will be attached to the Pacific squadron.

Orders have been issued by the Navy Department to expedite the work on the monitors Terror, Monadnock and Puritan. The Monadnock is at Mare Island. Her armor is either in place or ready to put on board, but some of the gun mounts have not been installed. The Monadnock will be assigned to duty on the Pacific.

The cruiser Philadelphia is at Seattle.

The U. S. ship Marion has sailed for the South.

The Adams has been hauled down near the stone drydock at Mare Island and will be taken in the first of the week. After going into commission the Adams will be sent north to relieve the gunboat Pinta. The latter will come to Mare Island and go out of commission and will probably be sold.

A number of the officers of the Boston are at Mare Island. Her executive, Lieutenant-Commander A. V. Wadhams, is aboard each day, and will make a good executive, judging from the manner in which he attends to his duties. He is a gentleman universally liked on board of ship.

The Monterey is out of dock, and will soon be sent to San Francisco.

Strong inducements will be presented to the coming Congress to appropriate funds for the commencement of a new drydock at Mare Island; also for funds to increase the ship building plant facilities; also to have a gunboat built at the yard. Congressman Hilborn intends to use his best endeavors to further this end, in which undertaking he will be ably seconded by all the Pacific Coast delegation.

Hospital Flower Mission.

The ladies of this society held a very important meeting at the Y. M. C. A. yesterday afternoon. It was determined that the Hospital Flower Mission should raise funds for the purpose of endowing a tree bed at the Queen's Hospital. For this purpose an entertainment and fair will be given at the residence of Mrs. F. M. Swamy on the evening of November 26th, of which fuller particulars will be given later.

Some shopkeepers in Japan serve their possible patrons with tea and cake before exhibiting their goods.

Lord Roberts declares that the shooting standard attained by the Indian troops is unequalled by any troops in the world.

In many countries the practice has been adopted of planting out fruit trees in place of merely shade trees along the highways.

IN A JAPANESE HOTEL.

A TWO-STORY HOUSE WITHOUT A NAIL IN IT.

A Dinner in Honor of the Emperor of Japan—Costly Lacquered Ware, Etc.

Through the courtesy of Mr. Ota, proprietor, a BULLETIN representative was royally entertained Monday evening at a regulation Japanese dinner given in honor of the birthday of his Imperial Majesty, the Emperor of Japan, at a first-class Japanese hotel which is located near King street bridge and is an exact duplicate of some of the hostilities of Dai Nippon. No nails have been used in its construction, each board, rail, post and piece of frame work being dovetailed in with its fellow. It is two-storied and about 24 by 56 feet in size; plain on the outside, but with a handsomely decorated interior. The front entrance is protected by two doors, one built of dressed planking, the other a lattice work screen.

Upon entering, you find yourself in a small vestibule, furnished with seats. Here one's shoes must be removed before proceeding further.

To the left is a flight of steps leading to the main living rooms, galleries and balconies.

MINE HOST OTA.

The rooms below consist of office, storerooms, kitchen, etc., where the food is prepared and business transacted.

On the second floor, the principal apartment is a room about 12 by 28 feet, which is used for a variety of purposes. On one side it is entirely open, the other being enclosed by light-framed sliding windows with paper panes. Crossing the floor and ceiling at intervals of eight or nine feet are heavy grooved beams, into which panels can be fitted so as to divide the room into four or five small ones. In one minute's time a servant can partition off a separate chamber.

In this large apartment we were received by the other guests and invited to partake of a dinner served in true high class Japanese style.

The table is raised about eight inches from the floor. In the center is a small, grated opening, six inches square, underneath which an oil stove is burning. Food properly prepared below is placed above the flame and so served hot. Dainty cups and bowls, lacquered dishes and handsome stoneware jars were used to contain the different eatables, which were very nice and palatable. Saki, in small cups, constituted the only beverage. The utmost politeness was shown by all the guests, and Japanese etiquette displayed at every step. After refreshing the inner man we then

ed to some self of us from the two great Japanese drama, "The Forty-seven Ronins" and "Twelve Daimies."

One is constantly struck with the extreme neatness of everything, and the foreign guests all came away delighted with their evening's entertainment. Mr. Ota showed us a number of pieces of rare Japanese lacquer work, very beautifully decorated. Some of the articles of black lacquer ware, ornamented with bronze, were especially fine and of great value.

SUGAR BOUNTY CLAIMS.

No Further Action to Be Taken Until Congress Meets.

A late Coast paper says it is understood that no further action will be taken by the parties interested in the payment of the sugar bounty until Congress meets. Secretary Carlisle has promised to hear arguments why he should not send the case, under Comptroller Bowler's decision, to the United States Court of Claims, but neither Senator Manderson nor any others of those interested has so far availed himself of this proffer and, it is said, will not do so. In the meantime, with the matter still up in the treasury, Congress will assemble and then an effort will be made to have Congress pass an appropriation of \$5,000,000 to pay the sugar bounty, coupled with a provision that the Comptroller shall not have jurisdiction to pass upon the constitutionality of the law.

Foreign Missions.

The Women's Board of Foreign Missions held an interesting session yesterday. Mrs. McCully Higgins, who arrived on the Coptic, told of her trip to Japan. Mrs. Robert Andrews read an interesting paper on "Reminiscences of Early Missionary Ladies," and Miss Mary Green reported on the condition of the Maternity Home. The afternoon's collection amounted to \$42.

In order to impress upon your mind the fact that the Seattle Brewing and Malting Co's beers are mild, light and lively, we below give the average per cent of alcohol in various liquors in comparison:

"Rainier" Beer.....	3.4 per cent
"Olympic" Beer.....	3.4
Ale.....	7.4
Cider.....	8.6
Chart.....	13.3
Whisky.....	54.0

On draught at the Criterion. *

The observatory at Peking is the oldest in the world, having been founded in 1279 by Kubla Kan, the first Emperor of the Mogul dynasty.

The English language is spreading rapidly in Japan, no fewer than 85,000 books having been imported from England during the past year.

In discussing the claims of various foods to appease hunger at once quickly and satisfactorily, Sir Henry Thompson gives the first place to milk.

Underground London contains 300 miles of sewers, 34,000 miles of telegraph wires, 4500 miles of water mains, 3200 miles of gas pipes, all definitely fixed.

Bullets made of precious stones are not often employed in warfare. But during some fighting on the Kashmir frontier, the natives used bullets of garnets encased in lead.

Rocking-craddles for babies were used by the Egyptians many centuries before Christ. Among the pictures copied by Belzoni is one of an Egyptian mother at work with her foot on the cradle.

Seattle Beer is a mild and refreshing drink. It will create flesh and generally improve the system. On draught at Criterion.

COMPANY B'S ELECTION.

PROCEEDINGS AT THE MEETING LAST NIGHT.

Captain E. O. White and Lieutenant E. A. Jacobsen and M. G. Johnson are the Officers.

Co. B. held an election at the drill shed last evening, followed by a musical program, speeches and a luncheon. A very pleasant time was enjoyed by members and others invited to be present.

At the business meeting held at 7:30 E. A. Jacobsen was elected first lieutenant in place of Louis Kenake, promoted to the office of adjutant of the First Battalion. M. G. Johnson was elected to Mr. Jacobsen's former position of second lieutenant.

After a ballot was taken, which gave large majorities to the above-mentioned candidates, the election was made unanimous.

The newly appointed officers received the hearty congratulations of their fellows and three cheers were huzzed up to each. The evening was then given up to enjoyment.

Short speeches were made. Louis Kenake led off, remarking that he did not come loaded, but that as the Captain (E. O. White) had a number of guns on him, and had threatened to use them upon anyone refusing to talk when called upon, he would save his life. Louis is a universal favorite and being in especially good form last night made some happy sallies which were applauded to the echo.

Sergeant-major Forster, First Battalion, made a neat little speech, voicing his regrets at having to leave the company and extolling the good qualities of his former comrades.

Ed. Towse, Sergeant-major Second Battalion, told a pretty little story and smiled like a cherub.

Remarks followed by Capt. White and Smith, Majors McLeod, Potter, Jones and Pratt, Captain Camara and Steward Hough.

"Seattle" Young sang a couple of songs of the same sparkling and frothy nature as the beverage he is agent for. Mr. Young being in fine voice, they were well rendered and well received.

B. L. Marks, accompanied by Norman Holstead on the guitar, played a charming piece on his mandolin.

Private Cockett's band sang a number of Hawaiian airs; Mr. Morris gave a funny recitation and also rendered "The Vagabond" in first rate style.

Refreshments were passed round, after which the boys had a little stag dance.

Corporal Story did the hula act in great shape.

Co. B. has now seventy-seven members, the largest number of any of them, and is called the "crack" company. During the month of October thirty-five members reported for target practice. The general average was 35.17-35, in scoring, while the best ten shooters averaged 42.3-10.

Treasurer Atwater reports all bills paid and the treasurer still left on hand as a balance. Aloha, Co. B.

More Japanese Arrested.

Officer Tuma arrested four more Japanese yesterday afternoon in connection with the fighting on Monday evening. Their arrest caused some consternation in Japanese town, and large numbers of Japs congregated in the vicinity of the Station House, while others went off to rustle for bail money.

Mechanics' Home, corner Hotel and Nuuanu streets, lodging by day, week or month. Terms: 25 and 50 cents per night; \$1, and \$1.25 per week.
